Announcing INTERISLANDER CONSORTIUM who may represent members or associates, natural and legal persons of any nationality living permanently or eventually in an island or that living in any continent, show a legitimate interest, expressly commit to the goals, recognize and respect our organization.

1st PURPOSES and AIMS. - SAFETY/SECURITY, SUSTAINABILITY and PROSPERITY, in their broadest senses, of all the inhabitants and visitors of any island, as well as contribute to the health, welfare and wealth of those who reside in or visit islands, are our islander priorities all over the World.

SAFETY/SECURITY in any ISLAND, has two perspectives. The first one is the help, care and protection after any disaster, emergency, incident or that affects the life and safety of the residents or visitors or investors of an island by any type of fact, serious risk or event that damage or harm to an island or its people. The second, but no less important, is prospective and prevention through risk assessment, early warning and alarm articulating urgent and efficient island and inter-island cooperation between public and private entities to develop safety/security plans for contingencies island. Experience shows that the sensitivity, empathy and solidarity among islanders, no matter how distant and different they are it is a very safe/secure asset value and high priority of this INTERISLANDER CONSORTIUM.

SUSTAINABILITY in any ISLAND is always a categorical islander imperative required of all national governments and supranational from Organización Nations (UN) to the most remote island or continental authority. The sustainable balance between people and the environment should allow the needs of the present generation without sacrificing any of the rights that should be future generations. Own morality and moral philosophy or ethics based on deontic logic is also an imperative due to whom, in turn, is proposed to require means and responsibility to the competent national and international authorities as firmly decided to promote this INTERISLANDER CONSORTIUM.

PROSPERITY in any ISLAND for islanders, investors and visitors, whether they are professionals or tourists or retirees, is an inalienable right and a social duty in any island. Capital investments and business ventures for employment creation and improvement are priorities in an era marked by the economic crisis and unemployment. We understand that telecommunications and transport, energy, water, food, health and education are the most important on an island to provide other goods and services, singularly, responsible tourism and sustainable island. The consortium each island aspire to be as well treated by the mainland authorities treated as the best in the world at all times and respect is the ontological argument philosophy of insularity of this INTERISLANDER CONSORTIUM.
